Toronto, Ontario (June 9, 2015) – Oban Mining Corporation (TSX:OBM) ("Oban" or the "Company") is pleased to announce that it has entered into binding letter agreements providing for the launching of supported share exchange take-over bids with each of Eagle Hill Exploration Corporation (TSXV: EAG) ("Eagle Hill"), Temex Resources Corp. (TSXV: TME) ("Temex"), Ryan Gold Corp. (TSXV: RYG) ("Ryan Gold") and Corona Gold Corporation (CSNX: CRG) ("Corona"). Oban has the option to revise the transaction structure for each bid and proceed by way of plan of arrangement should it conclude that is necessary or desirable. Completion of the transactions is subject to Toronto Stock Exchange ("TSX") approval. The combination of these five companies will create a leading Canadian focused gold exploration and development company (herein referred to as "New Oban").

In addition, Oban has agreed, subject to TSX approval, to complete a private placement (the "Private Placement") with Osisko Gold Royalties Ltd ("Osisko") whereby Osisko will invest up to \$20M in common shares in the capital of Oban ("Oban Shares") at a price of \$0.11 per Oban Share (the deemed net asset value per share value of Oban), provided that such investment shall not be for more than 19.9% of New Oban. The financing commitment includes the grant to Osisko of first rights to participate in royalties and streams to be created by New Oban, pro rata financing participation rights and the right to nominate three directors to the board of New Oban. For a period of five years from the date of closing of the Private Placement, Osisko will have a one-time right, should New Oban seek financing through the debt or equity markets, to provide first financing to Oban equal to \$5 million in exchange for the granting by Oban of a 1% NSR over such properties as are wholly owned by Oban immediately following completion of the Private Placement.

New Oban will be headquartered in Montreal with a Toronto corporate office. Exploration, engineering and administrative services will be provided by Montreal-based Osisko.

"This is an exciting new chapter in Canadian mining," stated John Burzynski, Chairman of Oban. "Post-consolidation, New Oban brings together major exploration assets in Ontario and Quebec under experienced management in a well-capitalized vehicle, with over \$65M in cash and a significant global gold resource. We are particularly excited to have Dundee Corp. and Osisko as key shareholders in the resultant company, by virtue of their respective existing holdings in four of the companies involved in the combination and Osisko's investment in this new vehicle. "

The transaction brings together mining industry leaders Sean Roosen and Ned Goodman as Co-Chairs of the new board of directors, together with Patrick F. N. Anderson, John Burzynski, Murray John, Rene Marion, Keith McKay, Jose Vizquerra, Robert Wares and David Christie. Management changes will see the current Chairman of Oban, John Burzynski, appointed President and Chief Executive Officer of New Oban, while Jose Vizquerra, current President and Chief Executive Officer of Oban, will become Senior Vice President and Chief Operating Officer of New Oban.

Eagle Hill President and CEO David Christie stated: "Windfall Lake is a strong asset and is ready for the next stage of investment to move it towards feasibility and development. With this transaction our shareholders not only receive an excellent premium, but will also gain access to a well-funded company run and directed by one of the top exploration and mining groups in the Canadian mining industry. The Osisko group's experience in exploration, development and mining success in Quebec is unparalleled."

Temex Resources Corp. President and CEO Ian Campbell commented, "This is a great opportunity for our shareholders as not only will our core exploration projects of Whitney and Juby be well funded, but our shareholders will be provided with the opportunity to gain immediate exposure to other excellent exploration and pre-development assets. On behalf of the Board of Directors and Temex management, we are delighted to offer our shareholders the once in a lifetime opportunity to participate in what we envision is the birth of a new Canadian mining house led by the elite of our industry."

Ryan Gold President and CEO Mark Goodman stated: "As President and CEO of Ryan Gold I am very pleased to bring this opportunity to our shareholders to join what I feel has the potential to be the start of an outstanding Canadian mining company. Our shareholders will have the opportunity to come into New Oban with a premium on our current share price and participate in what I have no doubt will be a well-led, well-financed and success-oriented new Canadian mining story. We are proud to be partners in this new company."

Corona President and CEO Murray John commented: "We are pleased to offer Corona shareholders the opportunity to join New Oban. Corona shareholders are being offered a significant premium and more importantly have the opportunity to participate in what will become one of the best-funded, exploration and development companies in Canada. Our Board unanimously recommends acceptance of the offer."
