Notes to Condensed Interim Consolidated Financial Statements For the three and nine month period ended September 30, 2014 and 2013 (In Canadian dollars) (Unaudited)

1) Reporting entity

Oban Mining Corporation (formerly Braeval Mining Corporation) ("**Oban**" or the "**Corporation**") is a Canadian Corporation domiciled in Canada and was incorporated on February 26, 2010 under the Ontario Business Corporations Act. The address of the Corporation's registered office is 150 York Street, Suite 410, Toronto, Ontario, Canada. The condensed interim consolidated financial statements of the Corporation at September 30, 2014 and 2013 include the Corporation and its subsidiaries, Braeval Mexico S.A. de CV, Braeval Peru S.A.C, Braeval (Barbados) Ltd., Oban Exploration Ltd., Oban Peru S.A.C, Oban Exploration (Barbados) Ltd., 2407574 Ontario Inc., (together the "Group" and individually as "Group entities"). The Corporation is primarily in the business of acquiring, exploring and developing mineral deposits in the Americas. On April 14, 2014 the Corporation completed the acquisition of Oban Exploration Limited; refer to note 4 for details on this transaction.

The business of exploring and mining for minerals involves a high degree of risk. Oban is in the exploration stage and is subject to risks and challenges similar to companies in a comparable stage. These risks include, but are not limited to, the challenges of securing adequate capital, exploration, development and operational risks inherent in the mining industry; changes in government policies and regulations; the ability to obtain the necessary environmental permitting; challenges in future profitable production or, alternatively Oban's ability to dispose of its interest on an advantageous basis; as well as global economic and commodity price volatility; all of which are uncertain. There is no assurance that Oban's funding initiatives will continue to be successful. The underlying value of the mineral properties is dependent upon the existence and economic recovery of mineral reserves and is subject to, but not limited to, the risks and challenges identified above. Changes in future conditions could require material write-downs of the carrying value of mineral properties and deferred exploration.

2) Basis of preparation

a) Statement of compliance

These unaudited condensed interim consolidated financial statements have been prepared in accordance with IAS 34 – Interim Financial Reporting on the basis of International Financial Reporting Standards ("IFRS") and interpretations as approved by the International Accounting Standards Board ("IASB") and are presented in Canadian dollars.

These unaudited condensed interim consolidated financial statements do not include all of the disclosures required for annual financial statements and therefore should be read in conjunction with the Corporation's audited annual consolidated financial statements and notes thereto for the year ended December 31, 2013. These unaudited condensed interim consolidated financial statements follow the same significant accounting policies and methods of application as those included in the Corporation's most recent audited annual consolidated financial statements, except for those described in note 3 below.

b) Functional and presentation currency

These financial statements are presented in Canadian dollars, which is Oban's functional currency. The functional currency of all of the Corporation's foreign subsidiaries is the United States dollar, which is the currency of the primary economic environment in which those entities operates. The financial information has been rounded to the nearest dollar.

c) Use of estimates and judgements

The preparation of these condensed consolidated interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses.

Notes to Condensed Interim Consolidated Financial Statements For the three and nine month period ended September 30, 2014 and 2013 (In Canadian dollars) (Unaudited)

2) Basis of preparation (continued)

c) Use of estimates and judgements (continued)

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed by management on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future period if the revision affects both current and future period.

3) Significant accounting policies

The financial framework and accounting policies applied in preparation of these condensed interim consolidated financial statements are consistent with those as disclosed in its most recently completed audited consolidated annual financial statements for the year-ended December 31, 2013, except for the following new IFRS standards that became effective in the period.

International Accounting Standard 36, "Impairment of Assets" ("IAS 36")

On May 29, 2013, the IASB made amendments to the disclosure requirements of IAS 36 'Impairment of Assets' ("IAS 36"), requiring disclosure, in certain instances, of the recoverable amount of an asset or cash generating unit, and the basis for the determination of fair value less costs of disposal, when an impairment loss is recognized or when an impairment loss is subsequently reversed. The amendments to IAS 36 are effective for annual periods beginning on or after January 1, 2014 and will be applied prospectively. There currently is no impact on the Corporation's financial statements upon adoption of IAS 36.

International Financial Reporting Interpretations Committee 21, "Levies" ("IFRIC 21")

IFRIC 21 'Levies' ("IFRIC 21") was issued by the IASB in May 2013, which is effective for annual periods beginning on or after January 1, 2014 and is to be applied retrospectively. IFRIC 21 provides guidance on accounting for levies in accordance with IAS 37, Provisions, Contingent Liabilities and Contingent Assets. The interpretation defines a levy as an outflow from an entity imposed by a government in accordance with legislation and confirms that an entity recognizes a liability for a levy only when the triggering event specified in the legislation occurs. The Corporation has not identified any impact from the adoption of this standard.

International Financial Reporting Standard 2, "Share-based payment" ("IFRS 2")

The amendments to IFRS 2 'Share-based payment' ("IFRS 2"), issued in December 2013 clarify the definition of "vesting conditions", and separately define a "performance condition" and a "service condition". A performance condition requires the counterparty to complete a specified period of service and to meet a specified performance target during the service period. A service condition solely requires the counterparty to complete a specified period of service. The amendments are effective for share-based payment transactions for which the grant date is on or after July 1, 2014. The Corporation has not identified any impact from the adoption of this standard.

Notes to Condensed Interim Consolidated Financial Statements For the three and nine month period ended September 30, 2014 and 2013 (In Canadian dollars) (Unaudited)

3) Significant accounting policies (continued)

International Financial Reporting Standard 3, "Business combinations" ("IFRS 3")

The amendments to IFRS 3 'Business combinations' ("IFRS 3"), issued in December 2013, clarify the accounting for contingent consideration in a business combination. At each reporting period, an entity measures contingent consideration classified as an asset or a financial liability at fair value, with changes in fair value recognized in profit or loss. The amendments are effective for business combinations for which the acquisition date is on or after July 1, 2014. The Corporation has not identified any impact from the adoption of this standard.

International Financial Reporting Standard 8, "Operating segments" ("IFRS 8")

The amendments to IFRS 8 'Operating segments' ("IFRS 8"), issued in December 2013, require an entity to disclose the judgments made by management in applying the aggregation criteria for reportable segments. The amendments will only affect disclosure and are effective for annual periods beginning on or after July 1, 2014. The Corporation has not identified any impact from the adoption of this standard.

International Financial Reporting Standard 9, "Financial instruments" ("IFRS 9")

IFRS 9 'Financial Instruments (Revised)' ("IFRS 9") was issued by the IASB in October 2010. It incorporates revised requirements for the classification and measurement of financial liabilities, and carrying over the existing derecognition requirements from IAS 39 'Financial Instruments: Recognition and Measurement' ("IAS 39"). The revised financial liability provisions maintain the existing amortized cost measurement basis for most liabilities. New requirements apply where an entity chooses to measure a liability at fair value through profit or loss – in these cases, the portion of the change in fair value related to changes in the entity's own credit risk is presented in other comprehensive income rather than within profit or loss.

On July 24, 2014, the IASB issued the final version of IFRS 9 with an effective adoption date of January 1, 2018, with early adoption permitted. The impact of IFRS 9 on the Corporation's financial instruments has not yet been determined.

International Accounting Standard 16, "Property, plant and equipment" ("IAS 16") and International Accounting Standard 38, "Intangible assets" ("IAS 38")

The amendments to IAS 16 'Property, plant and equipment' ("IAS 16") and IAS 38 'Intangible assets' ("IAS 38"), issued in December 2013, clarify how an entity calculates the gross carrying amount and accumulated depreciation when a revaluation is performed. The amendments are effective for annual periods beginning on or after July 1, 2014. The Corporation has not identified any impact from the adoption of this standard.

International Accounting Standard 24, "Related party disclosures" ("IAS 24")

The amendments to IAS 24 'Related party disclosures' ("IAS 24"), issued in December 2013, clarify that a management entity, or any member of a group of which it is a part, that provides key management services to a reporting entity, or its parent, is a related party of the reporting entity. The amendments also require an entity to disclose amounts incurred for key management personnel services provided by a separate management entity. This replaces the more detailed disclosure by category required for other key management personnel compensation. The amendments will only affect disclosure and are effective for annual periods beginning on or after July 1, 2014. The Corporation has not identified any impact from the adoption of this standard.

Notes to Condensed Interim Consolidated Financial Statements For the three and nine month period ended September 30, 2014 and 2013 (In Canadian dollars) (Unaudited)

4) Acquisition of Oban Exploration Ltd.

On April 14, 2014 the Corporation completed the acquisition ('the Acquisition") of Oban Exploration Ltd. ("OEL"), by way of a three-cornered amalgamation, whereby OEL amalgamated with a wholly owned subsidiary of the Corporation. In connection with the Acquisition, the Corporation amended its articles to consolidate the Common Shares on the basis of one post-consolidation Common Share for every 3.14 pre-consolidation Common Shares and changed its name to "Oban Mining Corporation". The Common Shares commenced trading on the Toronto Stock Exchange ("TSX") on a consolidated basis under the new symbol "OBM" on April 22, 2014.

Under the terms of the Acquisition, the holders of the Common Shares of OEL received 0.914 of a Common Share (on a post-consolidation basis) for each Common Share of OEL so held, for an aggregate of 70,019,211 Common Shares. Upon completion of the Acquisition, including the consolidation, the Corporation had 99,881,561 Common Shares issued and outstanding on an undiluted basis, approximately 70% of which were held by former shareholders of OEL and approximately 30% of which were held by former shareholders of the Corporation immediately prior to the effective time of the Acquisition.

This transaction has been accounted for as an acquisition of assets and liabilities as neither the Corporation nor OEL meet the definition of a business under IFRS 3. The acquisition of the assets of OEL was recorded at the fair value of the assets acquired of \$25,280,459, plus directly attributable transactions costs of \$505,577. Additional transactions costs incurred by OEL in the amount of \$160,373 were also incurred, which have been capitalized to the exploration and evaluation assets acquired.

The following table describes the estimated fair value of assets acquired and liabilities assumed as at the date of the Acquisition:

Net Assets Acquired	
Cash	4,904,270
Current Assets	79,387
VAT Receivable	1,148,186
Plant and Equipment	59,167
Exploration and Evaluation Assets	19,875,430
Current Liabilities	(280,404)
Total Net Assets acquired	25,786,036
Consideration	
Share Capital	25,280,459
Transaction Costs	505,577
Total Net Assets acquired	25,786,036

On April 22, the fair value of the identifiable assets acquired and liabilities assumed is supported by a formal independent valuation of the range of values representing the fair market value of OEL assets acquired by the Corporation.

Notes to Condensed Interim Consolidated Financial Statements For the three and nine month period ended September 30, 2014 and 2013 (In Canadian dollars) (Unaudited)

5) VAT recoverable

Value Added Tax ("VAT") recoverable represents input tax credits, claimable from the government of Peru and is in respect of the Corporation's exploration and development activities. This VAT is recoverable against future VAT payable; therefore the Corporation classified them as non-current, as the actual timing of a large portion of the balance is uncertain. During the quarter ended September 30, 2014, the Corporation determined that the recoverability of the VAT recoverable in Peru was not likely and therefore recognized a write-off of \$1,294,175.

Further, the VAT recoverable balance also contains amounts claimable from the government of Mexico. As of September 30, 2014, the Corporation has successfully collected a total of \$123,636, which had previously been written-off.

6) Expenses from continuing operations

a) Arcopunco

On January 26, 2012, the Corporation signed a letter of intention ("LOI") for 100% of the exploration authorization from Trabante de Huancavelica, Las Anima and Tres Mosqueteros in Peru. On August 2, 2012, the Corporation signed the final agreement with all three parties. The Corporation upon signing paid USD\$60,000, and USD\$100,000 on February 21, 2014. Additional payments due of USD\$200,000 on February 22, 2015 and USD\$2,000,000 on February 22, 2016, for 80% interest in the property are also required. An additional payment of USD\$3,000,000 can be made within 90 days of the exercise of the first option to earn up to 100% of the property. Upon commencement of production, the agreement is subject to a Net Smelter Royalty ("NSR") of 1.5% The Corporation may repurchase the NSR for a total amount of USD\$15,000,000. On August 16, 2013, the Corporation extended the terms of the last option payment of USD\$2,000,000 to USD\$1,000,000 due on the third anniversary date upon signing.

As a result of the Acquisition of OEL (note 4), the Corporation acquired the following exploration and evaluation assets, listed below:

b) Antamayo property

On September 30, 2011, the Corporation entered into an option agreement with a titleholder to earn an undivided 100% interest in the Antamayo property located in Peru. In order to complete the acquisition, the Corporation is required to make payments to the titleholder totalling USD\$1,000,000 over three years for a 70% interest, and an additional payment of USD\$9,000,000 to earn the remaining 30% interest. The Corporation was required to incur a total of USD\$3,000,000 of minimum exploration expenditures over the three year term of the agreement, which has been fulfilled as of September 30, 2014. The Corporation paid USD\$50,000 on signing the agreement, USD\$100,000 on August 2012, and USD\$250,000 on August 2013. If the Corporation decides not to earn the additional 30% interest after the cash payments and expenditures have been completed, a joint venture will be formed with the Corporation as sole operator of the venture.

9) Exploration and evaluation assets (continued)

Peru properties (continued)

b) Antamayo property (continued)

As a result of the acquisition of the Antamayo property from OEL (note 4), a total of \$8,355,119 was added to the book value of this property, to reflect the fair value determined by the independent valuator as well as a portion of the costs directly attributable to this transaction.

During the quarter ended September 30, 2014 a drilling campaign was completed on the Antamayo Project, from which it was determined that the mineralization in the system encountered was not significant enough for the Corporation to justify further drilling or exploration. Accordingly, the Corporation has begun the process of formally terminating the option agreement and has recognized a write-off of \$13,346,010 as at September 30, 2014.

c) Marcahui property

On September 30, 2011, the Corporation entered into an option agreement with a titleholder to earn an undivided 100% interest in the Marcahui property located in Peru. In order to complete the acquisition, the Corporation is required to make payments to the titleholder totalling USD\$2,360,000 over three years for an 80% interest and an additional payment of \$3,000,000 to earn the remaining 20%. The Corporation was also required to complete a total of 1,000 m of drilling by the second anniversary date after signing, which was fulfilled at the end of June 2012. The Corporation paid USD\$30,000 on signing the agreement, and an additional USD\$130,000 was paid during 2012. No option payments were made during 2013. If the Corporation decides not to earn the additional 20% interest after the cash payments and expenditures have been completed, a joint venture will be formed with the Corporation as sole operator. Once the joint venture is formed, each participating party can convert 10% of their participating interest into a 1.5% NSR.

On October 15, 2013, the Corporation entered into an option agreement with a non-related party ('optionee") under which the optionee has the option to acquire 75% of the Corporation's interest in the Marcahui project through a joint arrangement, by incurring an aggregate of USD\$6,000,000 in exploration expenditures, including 10,000 m of drilling, from which a minimum of USD\$1,000,000 including 1,500 m of drilling, are to be incurred on or before August 31, 2014 and the remaining expenditures are to be incurred on or before August 31, 2017. The optionee was also required to make a USD\$200,000 payment to the titleholder, which was completed in October 2013. During the quarter ended September 30, 2014, the optionee notified the Corporation of the termination of this option agreement; accordingly, the Corporation amended the agreement with the titleholder to extend the due date of the final USD\$2,000,000 payment by one year, to September 6, 2015.

As a result of the Acquisition of the Marcahui property from OEL (note 4), a total of \$4,699,755 was added to the book value of this property, to reflect the fair value determined by the independent valuator as well as a portion of the costs directly attributable to this transaction.

d) Magdalena property

On October 31, 2011, the Corporation entered into an option agreement on the Claudias title with a titleholder to earn an undivided 100% interest in the Claudias title located in Peru. In order to complete the acquisition, Oban was required to make payments to the titleholder totaling USD\$605,000 over three years in order to earn the 100% interest. Oban was also required to incur a total of \$75,000 of exploration expenditures by the second anniversary date after signing, which had been completed at the end of the first year. The Corporation paid USD\$5,000 on signing the agreement and USD\$45,000 on April 30, 2012.

9) Exploration and evaluation assets (continued)

d) Magdalena property (continued)

On October 5, 2012, Oban signed an option agreement with Peru Minerals SAC, Peruvian subsidiary of Promesa, an Australian entity, under which Oban optioned-out the rights and obligations on the Magdalena property, including payments due to the titleholder. The optionee is committed to fulfill the remaining USD\$520,000 payments due over the three year period and is required to pay Oban a total of USD\$218,000 either upon execution of the option agreement, or after 2015 (USD\$100,000 in 2015 and USD\$118,000 in 2016) and by completing a geophysical study by November 2014. If during this time Promesa decides to terminate the option agreement with the Claudias titleholder, the remaining payment of USD\$295,000 would become payable to Oban upon termination. In addition, upon execution of the agreement the parties will incorporate a new company in which Oban will hold 30% interest while the Peruvian subsidiary will hold the remaining 70% interest. The Corporation also staked 27,300 ha which has become part of the Magdalena Project. This was included as part of the agreement that was signed with Promesa on October 5, 2012. During the year ended December 31, 2013, Oban received a reimbursement of tenement fees capitalized in previous year in the amount of USD\$77,100, which resulted in a decrease in the value of the asset net of other additions of \$39,876.

On July 11, 2014, the Corporation and the optionee terminated the option agreement with the titleholder with regards to the Claudias concession. As a result, the commitment for the final payment of USD\$295,000 will be transferred directly to the Corporation.

e) Bermejo property

The Corporation acquired exploration rights on the Bermejo property, located in the Huaura region, in the north of Lima, and which is primarily focused on copper-gold and base metals.

f) Chosicano property

On June 14, 2011, the Corporation entered into an agreement to acquire 100% of the exploration claims from one titleholder for the Chosicano property in Peru. The Corporation paid USD\$70,000 upon signing the agreement, USD\$90,000 in September 2012, and USD\$234,000 during 2013. Additional payments of USD\$150,000 on June 15, 2014, USD\$220,000 on December 15, 2014, USD\$430,000 on June 15, 2015 and USD\$1,050,000 on December 15, 2015 were also required. The agreement is also subject to a 1% NSR upon commercial production.

During the nine months period ended September 30, 2014, the Corporation decided to not to continue with the project, terminating the contract and therefore recognizing a write-off of \$950,367.

Generative properties

a) Lithocaps properties

The authorized capital of Oban consists of an unlimited number of common shares. The holders of common shares are entitled to one vote per share at shareholder meetings of the Corporation. All shares rank equally with regard to the Corporation's residual assets.

On April 14, 2014, as described in note 4, the Corporation consolidated the common shares on the basis of one post-consolidation common share for every 3.14 pre-consolidation common shares. Furthermore, in consideration for the Acquisition of OEL, the Corporation issued 0.914 of a common share (on a post-consolidation basis) for each common share of OEL so held, for an aggregate of 70,019,208 post-consolidation common shares.

b) Loss per share

The calculation of basic loss per share for the three and nine month period ended September 30, 2014 and 2013 was based on the loss attributable to common shareholders and a weighted average number of common shares outstanding, calculated as follows:

d) Contributed surplus

On June 2011, the Board of Directors established an incentive stock-option plan to provide additional incentive to its directors, officers, employees and consultants. The maximum number of shares reserved for issuance under the incentive stock option plan is 10% of the issued and outstanding comment shares. The options issued under the Plan may vest at the discretion of the board of directors and are exercisable for a period of up to 5 years from the date of grant.

The following table summarizes the stock option transactions for the period ended September 30, 2014:
